

Uni[®] sort

Empowering
Workspace
Recycling

**Guaranteed Plastic &
CO₂ Savings, up to 80%**

Don't Be A WASTER!

Overhanging bin liners =
Massive plastic wastage

Most bin liners are only
30% full when removed
= 70% wastage!

Innovation is the answer to your plastic wastage

Automatically save plastic
and CO₂ regardless of what
people choose to do!

Match the liner to the waste, **not** the
waste to the liner.

Gather liner,
remove excess
air in bag

1

Apply two
cable ties
(or tie two
knots)

2

Cut off bag
and remove

3

Simply pull
down the liner
**Ready to use
again in 20-30
seconds!**

4

100,000

Single bags converted to Continuous Liners will save a staggering

23 tonnes of CO₂!

Bags Are
Always
100% FULL

Only use as much plastic
liner as you need to hold
the waste

Thinner
But
Stronger

3 Ply Liners

4 x Stronger

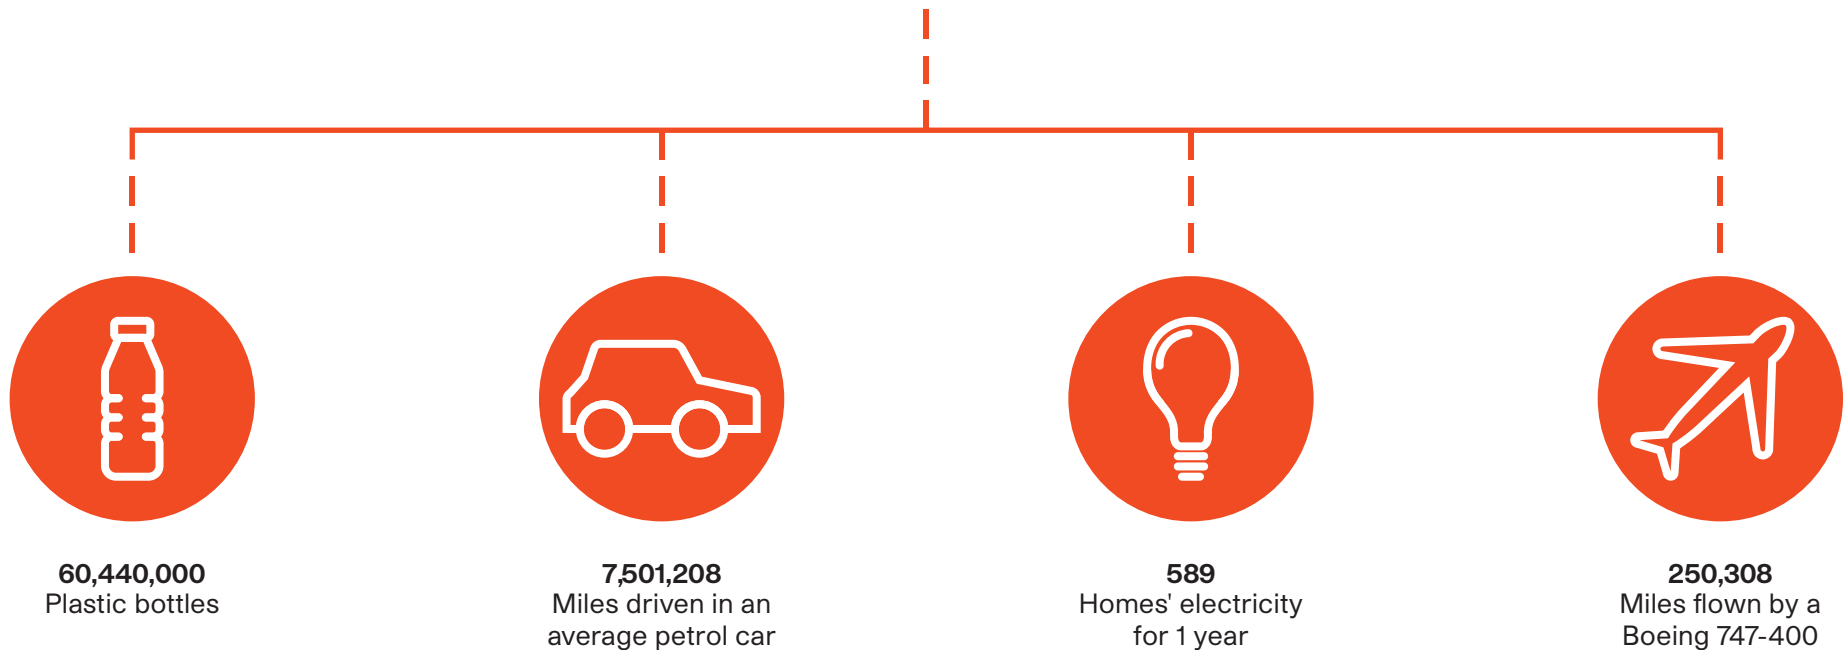

50% Thinner

**Less
Plastic
Used**

Annually, our customers **saved 667 tonnes of plastic & 3022 tonnes of CO₂!**

Which is equivalent too:

A Complete Workplace 'Binrastructure'

CO₂

Helping deliver
substantial CO₂ savings

Helping influence behavioural
change to increase recycling
